## **Submitting Comments**

According to the SWGFAST Bylaws, documents presented as "drafts for comment" are published for community review. During this review period, the community is encouraged to submit comments on any "draft for comment" document.

Although interested persons may contact any SWGFAST member to discuss the documents, comments and suggestions for changes must be submitted to the SWGFAST Executive Secretary to be reviewed at a SWGFAST meeting.

The comment period for a "draft for comment" document will extend until the SWGFAST meeting following the next International Association for Identification Annual Educational Seminar.

Comments and suggestions for changes must be submitted in writing, with contributor information (name, address, phone number, and email address), to the SWGFAST Executive Secretary. Contributor information will allow SWGFAST to contact the contributor for additional information if necessary.
